E-commerce Website

ই-কমার্স ওয়েবসাইট

A fast, mobile-first online shop with bKash, card and cash-on-delivery checkout, order tracking, courier booking and SMS order updates, managed from a simple Bangla admin panel.

24/7	3	100%	SEO
Online orders	Payment options	Mobile friendly	Ready for Google

The Challenge

Many Bangladeshi shops sell only through Facebook posts and inbox messages. Orders get lost in chat, stock is tracked by hand, payment proof comes as screenshots and customers keep asking where their parcel is.

Our Solution

A custom e-commerce website with product catalogue and variants, cart and checkout, bKash and SSLCommerz online payment plus cash on delivery, coupon codes, automatic SMS at every order step, courier booking and a Bangla admin panel for orders, stock and sales reports.

The Result

Orders come in through one organised system instead of inbox messages. Payments are verified automatically by the gateway, stock updates itself after each sale, and the owner sees daily sales and pending deliveries on one dashboard.

Key features

✓ Product catalogue
Categories, variants (size, colour), product gallery, offers and stock alerts.

✓ Checkout & payment
bKash tokenized checkout, cards/mobile banking via SSLCommerz and cash on delivery.

✓ Order management
Order status flow, invoice printing, returns and refund records.

✓ Courier integration
Book parcels with courier services and share tracking with customers.

✓ SMS & email alerts
Automatic messages for order placed, confirmed, shipped and delivered.

✓ Marketing & SEO
Coupons, Facebook Pixel, Google Analytics, sitemap and SEO-friendly product pages.

Who is it for?

- Fashion and lifestyle shops
- Electronics and gadget sellers
- Facebook-based businesses
- Local brands and manufacturers

Industry: Retail & E-commerce

Technology & integrations

Laravel · MySQL · bKash Tokenized Checkout · SSLCommerz · Courier API · Bulk SMS
